AMENDMENT AND REQUEST FOR RECONSIDERATION
UNDER 37 C.F.R. §1.111

In response to the Official Action dated June 29, 2001, please amend the above-identified application as follows:

In the claims:

- A/ ~~1. A method for generating a polynucleotide sequence or population of sequences from parent single stranded polynucleotide sequences encoding one or more protein motifs, comprising the steps of:~~
- Sub ~~a) providing single stranded DNA constituting plus and minus strands of parent polynucleotide sequences;~~
- B/ ~~b) digesting the single-stranded polynucleotide sequences with an exonuclease to generate populations of single stranded fragments;~~
- ~~c) contacting said fragments generated from the plus strands with fragments generated from the minus strands;~~
